

Our products are designed to be used correctly and with care for the purpose for which they are intended. No liability is accepted by Sonic for incorrect use of any of our products, and Sonic cannot be held responsible for any damage to personnel, property or equipment when using the tools. Incorrect use will also invalidate the warranty.

If applicable, the applications database and any instructional information provided has been designed to offer general guidance for a particular tool's use and while all attention is given to the accuracy of the data no project should be attempted without referring first to the manufacturer's technical documentation (workshop or instruction manual) or the use of a recognised authority such as Autodata.

It is our policy to continually improve our products and thus we reserve the right to alter specifications and components without prior notice. It is the responsibility of the user to ensure the suitability of the tools and information prior to their use.

## Instructions

### Flywheel Holding Tool Ford Petrol, Diesel

## 829094 - Flywheel Holding Tool

### Description:

The 829094 Flywheel locking kit is equivalent to the Ford OEM flywheel locking kit as detailed below. It is used to lock the flywheel to allow front pulleys etc. to be loosened and tightened without turning the engine.

N.B: Starter motor must first be removed.
